

Torontoist top picks: High Tea

Aeman Ansari, Torontoist

July 7, 2015

In *High Tea*, multi-award-winners James and Jamesy use physical humour and audience participation to transform the theatre's performance space into whatever they choose. While the play appears, on the surface, to be about a couple that spills tea all over the world, it's really an ode to the idea that anything is possible. The performers' irresistible hijinks leave the audience wanting more complimentary tea, and more of James and Jamesy.
