## **21-Time ‘Best-of-Fest’ & Canadian Comedy Award Winners** **- James & Jamesy in the Dark -**

*Pixar meets Waiting for Godot*  
*in critically-acclaimed international touring spectacle*

**CITY, PROVINCE or STATE** – Celebrated comedians **James & Jamesy** reach new heights of hilarity and depths of profundity with their production **James & Jamesy in the Dark**, **DATE** at the **VENUE**.

From the darkness of an unlit stage, two strangers meet, each with a chair and what appears to be the same task to complete: place the chair, then leave. Their encounter in this inky limbo disrupts their awareness of self and purpose, propelling them headfirst into an exhilarating discourse of understandings and misunderstandings.

With masterful physicality and quick-witted wordplay, James & Jamesy conjure answers to the age-old questions ‘Who are we?’ and ‘Why are we here?’ The result is laugh-out-loud hilarious and surprisingly illuminating.

Performed entirely in darkness, the only light originates from custom-built, illuminated costumes. CBC praises this theatrical ingenuity, describing it as “watching two big imaginative kids in a tent with flashlights, as they bring to life a whole world and invite you to step inside.”

Since its 2015 debut, the work has earned critical acclaim from audiences and reviewers across North America.

“People often speak of ‘The magic of theatre’, but this is truly magical... This is comedy at its profoundest and most essential.” *Stage Door, Toronto*

“It is the refinement of their movement – the subtle grace and attention to detail – that truly takes their show to the next level.” *Theatre in London*
